

KIRSTY MUENIMBITHI

IT Support | Cybersecurity | Networking | Digital Literacy | Web Development

Address: P.O BOX 28026, NAIROBI. Cell Phone: +254 743-209-687

Email: kirstymueni@gmail.com. LinkedIn: [linkedin.com/in/kirstymueni](https://www.linkedin.com/in/kirstymueni) Portfolio: kirstymueni.github.io

PROFILE

Computer Security & Forensics graduate with professional experience in IT support, networking, cybersecurity, digital literacy, and technology implementation. Skilled in troubleshooting hardware, software, and network issues, supporting enterprise IT environments, implementing secure technology solutions, and delivering digital skills training. Adept at collaborating with cross-functional teams to solve technical challenges, enhance operational efficiency, and promote technology adoption. Passionate about continuous learning and committed to building secure, reliable, and innovative IT solutions that create lasting impact

TECHNICAL SKILLS

- **Cybersecurity:** Vulnerability Assessment, Network Security, Ethical Hacking Fundamentals & Security Awareness
- **Networking:** TCP/IP, LAN/WAN, Routing & Switching & Network Troubleshooting
- **IT Support:** Hardware & Software Troubleshooting, Windows/Linux Administration, Microsoft 365 & End-User Support
- **Programming & Development:** Python, HTML, CSS, JavaScript & Scratch
- **EdTech:** ARES, Kolibri, ICT Integration, Digital Literacy Training, Curriculum Development
- **Tools & Platforms:** Kali Linux, Wireshark, Nmap, Cisco Packet Tracer, Git & GitHub

SOFT SKILLS

- Problem Solving & Analytical Thinking
 - Communication & Interpersonal Skills
 - Team Collaboration
 - Technical Documentation & Reporting
 - Adaptability & Continuous Learning
 - Time Management & Organization
-

PROFESSIONAL EXPERIENCE

VAULT ELECTRONICS

Jan 2026 – Present

Audio Visual Consultant & Technology Solutions Associate

- Design, recommend, and deploy integrated **Audio Visual (AV), Unified Communications, and workplace technology solutions** for corporate, education, hospitality, and public sector clients.
- Conduct client site assessments and technical consultations to identify requirements and recommend scalable, cost-effective technology solutions.
- Install, configure, and commission audio-visual systems, interactive displays, digital signage, video conferencing solutions, and collaboration technologies.
- Provide first-line technical support, system troubleshooting, and post-deployment maintenance to ensure optimal system performance and customer satisfaction.

- Prepare technical proposals, solution presentations, Bills of Quantities (BoQs) and product recommendations aligned with client requirements.
- Collaborate with technical and sales teams to deliver end-to-end technology projects, from solution design and implementation to testing, commissioning, and user handover.
- Deliver end-user training and technical guidance to maximize technology adoption and ensure the effective use of deployed systems.

OI PEJETA CONSERVANCY

Jun 2025 – Jan 2026

Digital Literacy Facilitator

- Implemented **ARES digital learning technology** across **15 community-sponsored schools**, supporting technology integration within a network of **45 partner schools**.
- Deployed, configured, and commissioned **100+ laptops**, ensuring devices were fully operational and ready for classroom use.
- Performed routine maintenance of ICT laboratories, including hardware inspections, software updates, and preventive maintenance to maximize system reliability and availability.
- Provided first-line ICT technical support by diagnosing and resolving hardware, software, and connectivity issues for teachers and learners across multiple schools.
- Traveled to partner schools to install ICT equipment, support infrastructure deployment, and ensure the successful implementation of digital learning technologies.
- Facilitated teacher capacity building on the effective use of **ARES** digital learning resources, promoting greater integration of technology into classroom instruction.
- Monitored technology deployment, maintained implementation records, and contributed to program reporting and stakeholder documentation to support project success.

COMMUNITYEMPOWERMENT THROUGH EDUCATION (CETE)

Jan 2024 – Jun 2025

Digital Literacy Program Curator

- Designed and delivered comprehensive digital literacy programs covering computer fundamentals, internet navigation, online safety, productivity tools, and responsible digital citizenship.
- Facilitated digital skills training for learners, educators, and community members, promoting confidence in the effective use of technology.
- Coordinated training schedules, learner assessments, program documentation, and participant engagement across multiple training locations.
- Developed and adapted digital learning resources to meet diverse learning needs and improve learner engagement and program effectiveness.
- Collaborated with schools, libraries, and community centers to identify digital skills gaps and tailor training programs to community needs.
- Evaluated program effectiveness through learner assessments, feedback analysis, and progress tracking, supporting continuous improvement.
- Supported participants in applying digital skills to education, employment, and everyday problem-solving while contributing to program reporting for stakeholders and partners.

HUMAN PRACTICE FOUNDATION

Nov 2023 – Jan 2024

Digital Literacy Intern

- Curated and organized **CBC-aligned digital learning content** on the **Kolibri Learning Platform**, supporting the pilot implementation of an offline digital literacy program across **3 community schools**.
- Assisted in the deployment, configuration, and setup of **50+ digital learning tablets**, ensuring reliable access to offline educational resources for **80+ learners** and **20+ educators**.
- Delivered foundational digital literacy training covering computer operation, internet navigation, digital safety, and responsible technology use.

- Developed user-friendly training materials and practical learning activities to improve learner engagement and digital skills acquisition.
- Provided first-line technical support by troubleshooting basic hardware, software, and ICT-related issues during training and device deployment.
- Collected and analyzed participant feedback to support curriculum refinement, program evaluation, and continuous improvement.
- Supported program planning, training logistics, and community outreach activities that expanded access to digital education in underserved communities.

LEWA WILDLIFE CONSERVANCY

Feb 2023 – Nov 2023

Digital Literacy Intern

- Delivered digital literacy and ICT training to **100+ learners** and **100+ educators** across **25+ partner schools**, covering computer fundamentals, internet navigation, email, online safety, and digital citizenship.
- Introduced learners to Scratch programming and computational thinking concepts, fostering creativity, logical reasoning, and foundational coding skills through interactive STEM learning activities.
- Supported the deployment, configuration, and maintenance of digital learning devices, ensuring reliable access to technology within classroom environments.
- Implemented and managed offline digital learning content using the **Kolibri Learning Platform**, improving access to educational resources in low-connectivity schools.
- Developed and adapted **KICD-approved, CBC-aligned** digital learning materials tailored to different learner ages, competencies, and digital literacy levels.
- Provided first-line technical support by troubleshooting basic hardware, software, and device-related issues during training and classroom activities.
- Monitored learner progress, collected feedback, and refined training approaches to improve learning outcomes and technology adoption.
- Collaborated with educators and project teams to support conservancy-wide digital inclusion initiatives and strengthen ICT integration within partner schools

RASMILINK LIMITED

Nov 2022 – Feb 2023

IT Support & Network Support Attaché

- Assisted in the installation, configuration, and maintenance of network infrastructure, including routers, switches, and end-user workstations.
- Configured MikroTik and UniFi network devices under supervision to support secure and reliable network connectivity.
- Performed network cabling, including Ethernet cable installation and termination, to support network expansion and infrastructure upgrades.
- Installed and configured Windows operating systems, software applications, and user workstations, ensuring systems were ready for deployment.
- Diagnosed and resolved basic hardware, software, and network connectivity issues while providing first-line technical support to end users.
- Assisted with preventive maintenance, routine system upgrades, and network troubleshooting to improve system performance and reliability.
- Collaborated with senior network engineers during client installations, infrastructure maintenance, and technical support activities.

GOOD SHEPHERD SISTERS

Nov 2020 – Feb 2021

IT Attaché

- Provided first-line technical support by troubleshooting hardware, software, and network-related issues for staff and end users.

- Assisted in monitoring and maintaining network infrastructure to ensure reliable connectivity and day-to-day IT operations.
 - Installed, configured, and maintained Windows operating systems, software applications, and peripheral devices.
 - Supported ICT projects by assisting with system setup, user support, and technology implementation activities.
 - Promoted cybersecurity best practices through routine system maintenance, software updates, antivirus management, and user awareness support.
 - Prepared user guides and delivered basic ICT support to improve staff confidence in using technology effectively.
 - Assisted in managing ICT assets, hardware inventory, and software installations to support efficient IT operations.
-

EDUCATION

2018 – 2023: Bachelor of Science in Computer Security and Forensics, Meru University of Science and Technology.

CERTIFICATIONS

Cyber Shujaa - Cisco Certified Ethical Hacker (CEH) – Cisco Networking Academy

- Hands-on experience in network security, vulnerability assessment, and penetration testing fundamentals
-
