PROFILE

Digital Skills Trainer with hands-on experience helping learners, educators, and community members build confidence in using technology. Experienced in delivering engaging digital-literacy training, supporting ICT device deployment, creating practical learning materials, tracking learner progress, and providing technical support during training sessions.

I have trained more than 100 learners and 100 educators across over 25 partner schools. Comfortable facilitating sessions on computer basics, internet navigation, email, online safety, digital citizenship, productivity tools, Scratch programming, and responsible use of technology. Brings a Bachelor of Science in Computer Security and Forensics, strong communication skills, patience, and a genuine interest in helping people use digital skills for learning, work, and everyday life.

CORE SKILLS

- Digital literacy and ICT skills training
- Face-to-face training and learner facilitation
- Computer fundamentals and Windows support
- Internet navigation, email, and online collaboration
- Microsoft productivity tools and digital citizenship
- Online safety and cybersecurity awareness
- Training material development and curriculum adaptation
- Learner assessment, progress tracking, and feedback collection
- Training schedules, attendance tracking, and program documentation
- Community engagement and training needs assessment
- ICT device deployment, setup, and troubleshooting
- Hardware, software, and connectivity support
- ARES and Kolibri digital-learning platforms
- Scratch programming and computational thinking
- Python, HTML, CSS, JavaScript, Git, and GitHub fundamentals
- Communication, presentation, patience, and teamwork

TECHNICAL TOOLS

ARES | Kolibri | Microsoft 365 | Windows | Linux | Cisco Packet Tracer | MikroTik | UniFi | Wireshark | Nmap | Kali Linux | Git | GitHub | Python | HTML | CSS | JavaScript | Scratch

PROFESSIONAL EXPERIENCE

VAULT ELECTRONICS

Jan 2026 – Present

Audiovisual Consultant & Technology Solutions Associate

- Conduct client consultations and site assessments to understand technology needs and recommend suitable solutions.
- Install, configure, test, and commission interactive displays, video-conferencing systems, collaboration tools, digital signage, and audio-visual equipment.
- Provide user training and practical guidance after installation to help clients use technology confidently.
- Troubleshoot technical issues and provide post-deployment support to maintain reliable system performance.

- Prepare solution presentations, technical proposals, Bills of Quantities, and product recommendations.
- Work with technical and sales teams to support smooth project delivery and user handover.

OIPEJETA CONSERVANCY

Jun 2025 – Jan 2026

Digital Literacy Facilitator

- Implemented ARES digital-learning technology across 15 community-sponsored schools within a wider network of 45 partner schools.
- Facilitated teacher capacity-building sessions on the use of ARES resources and digital tools in classroom learning.
- Deployed, configured, and commissioned more than 100 laptops for use in digital-learning environments.
- Maintained ICT laboratories through hardware inspections, software updates, preventive maintenance, and troubleshooting.
- Provided first-line technical support to teachers and learners, resolving device, software, and connectivity issues.
- Visited schools to support equipment installation, technology use, and continued learner and educator support.
- Maintained implementation records and contributed to program documentation and reporting.

COMMUNITYEMPOWERMENT THROUGH EDUCATION (CETE)

Jan 2024 – Jun 2025

Digital Literacy Program Curator

- Designed and delivered digital-literacy programs for learners, educators, and community members.
- Facilitated practical sessions on computer fundamentals, internet navigation, productivity tools, online safety, and responsible digital citizenship.
- Developed and adapted training materials to suit learners with different ages, confidence levels, and digital-skills needs.
- Coordinated training schedules, attendance, learner assessments, program documentation, and participant engagement.
- Worked with schools, libraries, and community centers to identify digital-skills gaps and adapt training to community needs.
- Tracked learner progress, collected participant feedback, and used findings to improve training approaches.
- Helped learners connect digital skills to education, employment, communication, and daily problem-solving.

HUMAN PRACTICE FOUNDATION

Nov 2023 – Jan 2024

Digital Literacy Intern

- Curated and organized CBC-aligned content on the Kolibri Learning Platform for an offline digital-literacy pilot in three community schools.
- Supported deployment and setup of more than 50 tablets, providing access to learning content for 80+ learners and 20+ educators.
- Delivered foundational digital-literacy training on computer operation, internet navigation, online safety, and responsible technology use.
- Developed practical learning activities and simple training materials to increase learner engagement.
- Provided first-line support for basic hardware, software, device, and platform issues during training sessions.
- Collected feedback from learners and educators to support curriculum improvement and future program planning.
- Assisted with training logistics, community outreach, and learner support.

LEWA WILDLIFE CONSERVANCY

Feb 2023 – Nov 2023

Digital Literacy Intern

- Delivered digital-literacy and ICT training to more than 100 learners and 100 educators across over 25 partner schools.
- Facilitated engaging sessions on computer fundamentals, email, internet use, online safety, and digital citizenship.
- Introduced learners to Scratch programming and computational thinking through practical STEM activities.
- Supported deployment, configuration, maintenance, and troubleshooting of digital-learning devices.
- Used Kolibri to support offline learning in schools with limited internet connectivity.
- Developed and adapted KICD-approved, CBC-aligned learning resources for different learner ages and skill levels.
- Monitored learner progress, collected feedback, and adjusted training methods to improve outcomes.
- Worked closely with teachers and project teams to improve technology adoption in schools.

RASMILINK LIMITED

Nov 2022 – Feb 2023

IT Support & Network Support Attaché

- Supported installation, configuration, and maintenance of end-user workstations, routers, switches, and network infrastructure.
- Assisted with configuration of MikroTik and UniFi devices under supervision.
- Installed Windows operating systems, applications, and user workstations.
- Helped resolve basic hardware, software, printer, and connectivity problems.
- Supported Ethernet cable installation, network upgrades, and preventive maintenance.

GOOD SHEPHERD SISTERS

Nov 2020 – Feb 2021

IT Attaché

- Provided first-line ICT support to staff and end users.
- Installed and configured Windows operating systems, software applications, and peripheral devices.
- Assisted with network maintenance, ICT asset management, and technology implementation.
- Prepared basic user guides and supported users with common technology challenges.
- Promoted cybersecurity awareness through software updates, antivirus support, and safe technology practices.

EDUCATION

2018 – 2023: Bachelor of Science in Computer Security and Forensics, Meru University of Science and Technology.

CERTIFICATIONS

Cyber Shujaa - Cisco Certified Ethical Hacker (CEH) – Cisco Networking Academy

- Hands-on experience in network security, vulnerability assessment, and penetration testing fundamentals
